PROFESSIONAL SUMMARY

AI Filmmaker and Generative AI Artist specializing in cinematic AI advertisements, branded visual storytelling and end-to-end generative production. Currently creating AI-driven films and advertising content at StoryLab by Devansh, with hands-on work across concept development, scripting, storyboarding, character and environment continuity, image/video generation, virtual cinematography, motion prompting, voice and lip-sync workflows, editing, VFX, sound and final delivery. Strong focus on photorealism, cinematic composition, multi-shot consistency and production-ready ad execution.

CURRENT EXPERIENCE

AI Filmmaker & Generative Ads Creator | StoryLab by Devansh **Present**

- Create cinematic AI advertisements and short-form brand films from concept and script through storyboard, shot design, generative production and final edit.
- Generate production-ready image and video sequences using reference-driven workflows, maintaining character identity, costume, product, environment, lighting and visual continuity across shots.
- Develop detailed prompts for camera framing, lens language, camera movement, subject performance, dialogue scenes, product shots, transitions, lighting and cinematic realism across multiple AI video models.
- Build AI ad workflows combining image generation, text-to-video, image-to-video, video-to-video, voice generation, lip-sync, sound design, compositing, VFX, color grading and upscaling.
- Translate advertising ideas into strong hooks, visual treatments, pacing and platform-ready creatives for social media and digital campaigns.

CORE AI FILMMAKING & AD CREATION SKILLS

Generative AI Filmmaking • AI Commercial & Ad Production • AI Video Generation • Cinematic Prompt Engineering • AI Storyboarding & Previsualization • Creative Concept Development • Script-to-Storyboard Workflow • Character Consistency • Environment Continuity • Product Visualization • Text-to-Image • Image-to-Video • Text-to-Video • Video-to-Video • Multi-Shot Sequence Creation • Camera Angles & Lens Planning • Motion Prompting • Performance Prompting • Lighting & Look Development • Visual Continuity • Creative Direction • Art Direction • AI Voiceover • Lip-Sync • Sound Design • Video Editing • VFX & Compositing • Color Grading

AI VIDEO GENERATION TOOL STACK
